

Heavenly Father, please pour forth Your blessings upon myself and my family, especially when it comes to spending time on our devices. I pray that everything we watch, say and do be for Your greater glory. I pray that *nothing* we do be offensive to You.

We want to be the best versions of ourselves and have integrity in every area of our life. For that reason, please send your holy guardian angels to protect our time online. May they be ever vigilant in their defense of our souls, and may they stand constant guard over our eyes, ears and hearts.

In your holy name we pray,

*Amen.*
